

OUR PROCESS

CMJ CABINETS™
CUSTOM KITCHENS, CLOSETS, AND MORE

PHASE 01

1. Intro Call

Tell us about your project in a quick call: your space, your style, your timeline, & your budget. (10-15min call)

2. Site Vist

We visit your home, take exact measurements, and see the space. (~ 1hr.)

PHASE 03

5. Deposit

A 50% deposit gets your project started and holds your place in our production schedule.

6. Production

Custom cabinets, handcrafted in our Los Angeles workshop with quality materials and soft-close hardware.

7. Install

Our own installation team delivers and installs with precision.

PHASE 02

3. Design with Quote

We design your project with you (layout, materials, and finishes) and deliver a quote with mock-ups.

4. Approval

Take a look at your design and quote, let us know about any tweaks, and sign off within 15 days. Pricing may change after that window.

PHASE 03

8. Walk Through

We walk through the finished project with you, detail by detail, to make sure everything is perfect.

9. Final Payment

Once you're completely happy with the result, the final payment closes out your project.
